

EUGENE PAUL BADATO

AI & SOFTWARE ENGINEER

eugenebadato.com · badatoeugenepaulm@gmail.com

SKILLS

Frontend: Vue.js, Nuxt.js, Next.js, React, React Native, Flutter, Tailwind CSS

Backend: Node.js, Laravel, Prisma, Firebase, MongoDB, PostgreSQL

Other: Supabase, Headless CMS, PHP, Vb.net, System Administration

TOOLS & PLATFORMS

Vercel, Render, Cloudinary, Cloudflare, Firebase, AWS, Cyclic, DigitalOcean, Netlify

ABOUT

Creator of PelikulaPH, an automated monitoring system, and a Hunter x Hunter API built for fellow anime fans. Passionate about mentoring aspiring developers — helping them grow while learning from their journeys too. Outside of code, he enjoys game design and staying current with web tech.

PROJECTS

EugeOS — All-in-one platform for online business owners — campaigns, PURLs, funnels, finance, and prospect management

PelikulaPH — Movie discovery app (Vue.js, Firebase, OMDb/TMDB API)

Hunter x Hunter DB API — Public API for anime data (Node.js, Express, MongoDB, Nuxt.js)

AWARDS

- Best Thesis Programmer
- Best Overall Thesis
- Best Thesis System
- Highest Individual Grade, Thesis
- Best Thesis Defense & Presentation

EDUCATION

BS, Information Technology

La Concepcion College

2014 – 2018

SUMMARY

Full-stack developer with 9+ years of professional and freelance experience building modern web applications and APIs, specializing in Vue/Nuxt.js ecosystems, Node.js backends, and AI-integrated tools. Experienced across startup and agency environments, from frontend architecture to system administration, with a track record of leading initiatives, mentoring developers, and delivering production-ready software end to end.

EXPERIENCE

HealthcareGPS™ Inc. 2 yrs 8 mos · California, US · Remote

AI & Software Engineer Nov 2024 – Present

- Develop full-stack features using Nuxt.js and Tailwind CSS for healthcare software products
- Integrate AI-driven functionality into core application workflows and internal tools
- Design and maintain APIs and services supporting patient- and provider-facing platforms
- Collaborate with a distributed, cross-functional team to plan, build, and ship features end to end

Frontend Developer Feb 2024 – Nov 2024 (Part-time)

- Built responsive, accessible UI components in Nuxt.js ahead of transitioning to full-time engineering role
- Worked closely with design and backend teams to translate product requirements into working interfaces

Teratomo Corporation 2 yrs 6 mos · Japan-focused company
